

How your support helps Brooker's Child Care and Dental programs

Community Support is an important part of Brooker's success. Program fee receipts cover less than 80% of our program costs for our child care and dental programs. We count on donors like you to ensure our programs maintain their high quality and are available to all we serve.

Program Receipts in dental and child care cover 79% of the programs' expenses. Program receipts include tuition payments, insurance payments and private dental payments.

Community Support funds program expenses not fully funded by program receipts. Community support includes community contributions, grants, and special event revenue.

Investment Income helps fund program expenses not fully funded by program receipts. Investment income includes dividends and interest from endowment funds, investment funds and trust funds.
